Valery Goreglyad

(p. 183)

Executive summary on the question about determining criterion approach to evaluating efficiency of operations performed by the Russian Federation Ministry of Finance associated with the securities of the Russian Federation Government.

Subject of the expert-analytical exercise is outcomes of the operations completed by the Ministry of Finance with government securities in 2004-2007.

During the expert-analytical exercise we developed a system of basic indices for performance evaluation of operations with government securities. Evaluating indices are organized and grouped based on similarity of their economical content with use of official information, such as reports, statistical and analytical materials provided by participants of budgetary process, brokers who represent the Russian Ministry of Finance on the government stock market and financial operators on the government stock market.
